

In One Sentence: ReportXpert is an intelligent digital registrar that eliminates 4 months of grueling paperwork by reading, auditing, and generating government-ready college accreditation dossiers in **5 minutes** — completely offline on local hardware with zero data leaks.

WHY THIS MATTERS: THE ADMINISTRATIVE CRISIS

✗ The Problem: Accreditation Hell

Every year, colleges risk lower rankings, lost accreditation, and crores in funding due to disorganized paperwork:

- **Scattered Proofs:** Certificates & degrees trapped in dusty paper files across departments.
- **Calculation Errors:** Spreadsheet math mistakes in student-to-teacher or budget ratios.
- **Faculty Burnout:** 50+ professors pulled from teaching for 4 months to manually type tables.

✓ The Fix: 24/7 Local AI Auditor

ReportXpert acts as a tireless, ultra-accurate compliance officer living right on the college's local computer:

- **Drop Any File:** Scans, mobile photos, Excel sheets & PDFs are read and sorted instantly.
- **Proactive Audit:** Catches missing stamps, unindexed papers, and wrong formulas beforehand.
- **Zero Cloud Risk:** Student grades, salaries, and exam records never leave campus premises.

4 CORE SUPERPOWERS (WHAT IT ACTUALLY DOES)

Smart Auto-Classify

Drop any pile of documents. AI reads handwriting, stamps, and tables, automatically filing them into Faculty, Student, Research, or Events.

Government Auditor

Inspects data against official NAAC & NIRF rules. Catches whether research papers are verified in Scopus or if student counts have discrepancies.

1-Click Dossiers

Press one button to compile complete, publication-ready Word (.docx) and Excel (.xlsx) books formatted to exact statutory templates.

100% Air-Gapped Privacy

Zero cloud subscription. Runs entirely on Apple Silicon or on-premise GPU. No data leaves the room—guaranteeing 100% FERPA/UGC data sovereignty.

HOW IT WORKS: 3 SPECIALIZED AI BRAINS

1. The Manager

Llama 3.2 3B

The friendly conversational orchestrator. Understands faculty prompts in plain English, decomposes requests, and coordinates the pipeline.

2. The Deep Thinker

DeepSeek-R1 7B

The strict statutory auditor. Uses chain-of-thought reasoning to mathematically cross-check metrics against government guidelines.

3. The Eyes

Qwen2.5-VL 3B

The visual specialist. Reads blurry scanned certificates, physical signatures, campus layout blueprints, and handwritten mark sheets.

✗ BEFORE REPORTXPRT

50 professors working late for 4 months, messy manual spreadsheets, panic when inspection teams ask for proofs, and high risk of grade downgrades.

✓ WITH REPORTXPRT

1 local machine, 5-minute automated dossier generation, 100% verified proof backing, zero cloud leakage, and guaranteed top-tier accreditation readiness.
